### The Man From Blankley's

All Talking

Here is America's foremost actor in a slap-dash satire that took New York by storm. An amazing, surprisingly different comedy that has been hailed by the critics as "Hilarious," "Refreshing," "Brilliant," "A delight and a joy."

The New York critics without exception raved about John Barrymore in his first modern high hat comedy—you'll rave too when you see it—The smartest comedy of the year.

Tuesday, July 1st, Continuous Shows, 5.00 to 8.45.

### The Latest in Food

Flavor Sealed

### Hormel Milk-Fed Chicken

READY TO SERVE

For the summer months our stock of Cooked Meats will always be complete.

## Champion Meat Market

Notice to Contributors and Advertisers

The habit of handing copy for articles and advertisements in to the office on Thursday and Friday has grown so general that some action is absolutely necessary to regulate this matter, partially at least. In future get copy into the office not later than Wednesday noon if you wish its insertion in the current issue, and earlier than that if possible. This week over a column of news matter is carried over of necessity, and the paper is late.

## Champion Elks Ready For July 1st

Next Tuesday, July 1st, the local Elks are all ready for one of the biggest Sports' Days ever attempted for Champion. The High River Band will play a short program on Main Street at 11.45 and the parade will then start for the grounds.

The local committee sincerely hope that everybody will decorate their cars and homes and, don't forget just a few flags will do it.

500 Bags of Alberta Peanuts, made by the Independent Biscuit Co. of Calgary, will be dropped on the sports' grounds from the Aeroplane.

You'll sure be amused by the antics of Lomond vs. Carmangay clowning their way through a softball game.

Tractors may be all the Rage but you should see those boys from all over the Country Side throwing those broken bands of steel in the Big Horseshoe Tournament, Neil McLeod general manager. When their shoes wear out they will be on their feet again.

Turn on the Heat! Happy Days are here again! Let's go! Everybody's going to Champion Elks Sports, July 1st.

## O.E.S. Hold Birthday Party

One of the happiest events in the history of Champion Chapter, No. 30, Order of the Eastern Star, was that which took place on Monday evening, June 23rd when the tenth anniversary of the local organization was fittingly celebrated. Fraternal visitors from Maple Leaf Chapter, Lethbridge; Laurel Chapter, Lethbridge; Heather Chapter, Carmangay, and Faradale Chapter, Vulcan, numbering over one hundred, participated in the festivities and by their genial presence added greatly to the enjoyable occasion.

The meeting was held in the auditorium of the Community Hall, the better to accommodate the large number in attendance. Opening and closing ceremonies were conducted by the officers of Champion Chapter in a most creditable manner; the degree work was exemplified by the officers of Maple Leaf Chapter, No. 7, in their usual perfect form. This Chapter performed a similar service ten years ago at the time Champion Chapter was constituted, though the personnel of the staff has changed. However, many who assisted on the former occasion were present at the birthday party, including Mrs. McClellan, Worthy Grand Matron; that time, Mrs. Scott, acting Grand Marshall, and Miss M. G. E. Gibson, Jr. Past Grand Matron.

A pleasing feature in connection with the anniversary was a presentation to the Chapter of a Morocco bound Bible by Mr. and Mrs. J. N. Boenber, in appreciation of the many favors received from the Chapter and in remembrance of the many happy hours spent in fraternal companionship.

Later the jovial company adjourned to the banquet room where tables beautifully decorated and laden with tempting viands awaited them. Occupying the place of honor at the head table was a wonderful, fine, strong birthday cake, decorated with ten candles. The piece of culinary art, designed and executed by Mrs. Hagerman and Mrs. Clement, was graciously presented to Mrs. Beaubier, first Worthy Matron of Champion, whose natal day anniversary occurs on the same date as that of the Chapter.

With Mr. G. A. Orr, first Worthy Patron of Champion Chapter presiding, an entertaining program of speeches and music was presented as follows:

Toast To the King.  
"God Save the King."  
"The Grand Chapter of Alberta O. E. S., J. S. Collins, Response, Miss M. G. E. Gibson, P. G. M.

Solo, Mr. J. E. Hannard.  
"History of Champion Chapter, No. 30," Mrs. J. N. Beaubier, P. G. M. Response, Mrs. E. McClellan, P. G. M. Solo, Mrs. C. McLean.  
"Our Visitors," Mrs. J. M. Roebuck, Response, Mr. Cull.  
Solo, Mrs. A. S. Roberts.

At the close of the program Mrs. Beaubier was the recipient of a beautiful bouquet of rose carnations and Shasta daisies, presented by Mrs. McClellan of Maple Leaf Chapter.

The guests departed at a late hour unanimously declaiming Champion Chapter true to name, especially in the line of hospitality.

The committee in charge of arrangements and to whom the success of the evening was very largely due were Mrs. J. D. Hagerman, Mrs. J. S. Collins, Mrs. Geo. Dupue, Mrs. W. A. McIntyre and Mrs. O. D. Hagg, generously assisted by other members of the Chapter.

## Crop Damage In Central Alberta

The fifth fortnightly crop report of the provincial Department of Agriculture says in part: "In the central and eastern part of the province rains within the past few days have done much to relieve the serious condition caused by continued dry weather and high winds. Estimates place the damage from winds and outcrops as high as 40 per cent. Much of this land has been reseeded but in some but in some cases this was impossible owing to the difficulty in securing seed. The western and northern areas have abundant moisture and their greatest need is for warm weather. Along the C.N.R. lines eastward from Edmonton and north of them, heavy rains have fallen. St. Paul reports five inches since June 1st and Vermilion 3.91 from June 1st to June 13. The Peace River district continues to have abundant moisture with slight damage from floods in the eastern part. Insect injury, particularly from cutworms, is greater than usual otherwise crop conditions are favorable."

## BRIDE ELECT IS 'SHOWERED'

On Wednesday afternoon Mrs. A. W. Jopling and Mrs. H. C. Jopling were joint hostesses at the home of the former in honor of Mrs. Erma Aubrey, bride elect, at a miscellaneous shower. A very enjoyable time was spent after which the guest of honor was made the recipient of many beautiful gifts. A large number of ladies were present.

THURSDAY, June 26, 1930

**NOTES AND COMMENT.**

The elections are over and the U.F.A. government is firmly established in power for another term of years. This result was generally expected and brought no surprise. Opposition to the government has been strengthened, a very desirable thing. With fewer three-cornered fights than characterized the previous provincial election some close contests were staged which developed the extent of the opposition to the government much more satisfactorily. The emphatic defeat of the liberal leader in Macleod was one of the surprises of the election.

The precipitation recorded by the Canadian Bank of Commerce instruments for the rains occurring between Thursday night and Monday morning was 68.73 and 20, making the total 1.01 inches. That is a lot of moisture but the general opinion is to the effect that it was just right.

What is at the stage where anything will put the price down and it takes a great deal to put it up. Optimistic crop reports have more or less to do with the situation and, unfortunately there is a general disposition to conceal damage as possible and paint the picture of the coming harvest in very rosy colors. Hope springing eternally is a fine thing for home consumption but damaging to values in many instances.

When it was evident that some sort of a top would have to be provided for automobiles, a quarter of a century ago, designers made a survey of vehicles all over the world. The top of the cap car of South Africa offered the nearest approach to what was needed and, with modifications, was adopted.

Champion has always been able to hold a successful day's celebration and this year's effort, handled by the Elks, Lodge, promises to be fully up to it if not exceeding the standard that has been maintained in providing a real day's entertainment for the public. Naturally baseball is a factor, with Barons, Staveley and Champion teams the contenders, while athletic events are well provided for. The High River band of twenty-five pieces will be present while midway attractions will include a merry-go-round, monkey motor-drome and a ferris wheel. Music for the big dance in the evening will be furnished by the Len Davis orchestra. The program is a well balanced one and will undoubtedly appeal to celebrants of Dominion Day far and near. You can be sure of a big July 1st at Champion and a genuine welcome awaits you.

Intensive development of agriculture leading to mass production is the solution of the present business depression, says Henry Ford. Evidently

Ford's enthusiasm for antique farmhouses does not include antique farm methods.—C.S. Monitor.

It is also evident that Mr. Ford is also overlooking the fact there have been too much mass production in many directions, wheat being one of the most notable ones. Henry should stick to his automobiles.

**Trade With Germany Decreased in 1929**

The German analysis of trade figures between that country and Canada show a large decrease during 1929 over the previous year, amounting to approximately 20 per cent. In the case of Canadian goods shipped alone. The commercial

intelligence journal, published by the department of trade and commerce says: Compared with the previous years the German statistics of imports from Canada in 1929 are chiefly noted for the market decline in the importations of food-stuffs, particularly wheat, rye, wheat flour, oats, corn, cheese, lard, honey and dried apples. The importation from Canada last year of 745,100 metric tons of wheat compares with a total of 1,007,107 metric tons in 1928. The imports of Canadian wheat flour decreased from 13,763 metric tons in 1928 to 7,034 in 1929. Germany ranked last year, according to Canadian trade statistics as the fourth largest market for Canadian exports.

**True to Form**

Gump had been told by his friend, the garage mechanic, that motor oil rubbed on the dog would exterminate fleas. A day later the phone rang: "Say, Art, ever since I put that oil on my dog he's done nothing but run around house at top speed. What'll I do?" "Change oil every 500 miles."

**Dr. H. NEWTON HEAL**

DENTAL SURGEON

At Champion Thursday, Friday and Saturday.

At Camanaguy Monday, Tuesday and Wednesday.

**J. FRED SCOTT LL. B.**

Barrister, Solicitor, County Public, of 215 Lancaster Building Calgary will be in Champion Thursday afternoon, at Farmer's Hardware.

**Lutheran Church Services**

The Lutheran Church will preach the Gospel of Christ and Him crucified. Lutheran service will be held, the Lord willing, at the Lutheran parsonage on Sunday, July 6, at 11:00 a.m. Sunday School after services.

You are heartily invited to attend and to bring your friends. REV. F. A. DUENNING, Pastor.

**THE MAGIC OF ELECTRICITY**

We have absolutely nothing up our sleeves but behind us is a mighty army of workers and a great system of lines and power plants. By the pressure of a button we will

Turn night into day  
Cook without fire  
Freeze without ice  
Change the weekly wash into snowy linen  
Clean the house without drudgery

In other words, make life easier, happier and lighter in a thousand different ways.

**Service Garage Champion**

Even though Firestone cords are of superior strength and elasticity before they are built into Firestone Tires, they go through the Gum-Dipping process for added strength and endurance.

Gum-Dipping—exclusive to Firestone Tires—saturates and impregnates every fibre of every cord in the tire. This prevents the cords from chafing against each other and eliminates internal friction and heat—the greatest enemy to tire life.

Thus Firestone Gum-Dipped Tires have double reasons for their toughness, ruggedness and unequalled mileage—by actual test they hold all world's records for mileage and endurance! Specify Firestone Gum-Dipped Tires on your car. See your nearest Firestone Dealer today.

**Tires almost worn out are dangerous ..**

**DRIVE IN SAFETY ON DOMINION ROYALS**

Look to your tires early this season. Have them inspected by a Dominion Tire Depot expert.

Your old tires may be worn to the danger point. Replace them with Dominion Royals, standard equipment on many of Canada's finest cars.

Dominion Royals—the tire of today for the car of today—are sold and serviced by Canada's greatest tire organization, the Dominion Tire Depot System, each independent unit distinguished by its blue and orange color scheme.

# Island Falls Plant Now Supplying Electric Energy In the Northern Hinterland

Saskatchewan's first hydro-electric plant has commenced operation.

Three generating units at Island Falls are in use and power is being transmitted on a 50,000 volt line to the mining town of Pin Flon, on the Saskatchewan-Manitoba border.

Inauguration of the hydro project in the northern hinterland marks an important milestone in Saskatchewan mining development.

When the Whitney interests took up their option on the Pin Flon Flon claims on December 1, 1927, development was started that has already involved expenditure of close to \$25,000,000. Included in this was the building of a border mining town which now has a population of nearly 3,000, and the building of a 90-mile railroad across the muskeg from the Flon to the Pin Flon site.

The Hudson Bay Mining and Smelting Company, Ltd., sponsored by Jack Hammill and the Whitney interests, cut about for sufficient power to operate an electric smelter at Pin Flon, Manitoba power sites were passed up in favor of the Churchill site at Island Falls in Saskatchewan, a distance of 83 miles from the townsite of Pin Flon.

Winter roads were cut through the muskeg from Pin Flon and in places 50 below weather an almost continuous train of caterpillar tractors bore through the balm to deliver thousands of tons of cement and supplies to the Island Falls site.

Traditional methods of forest firefighting were thrown into the discard and history was made that winter. The speed of the operations alone revealed the mammoth proportions of the entire undertaking.

There are now electric lights at Pin Flon, one of the most up-to-date towns in the northwest, but so there have been electric lights in the modern settlement of Island Falls for some months past.

The Island Falls and Pin Flon power and mining projects have led the way for history-making development in northern Saskatchewan and Manitoba and other undertakings have closely followed that commenced by the Whitney people.

The Sherritt-Gordon mine at Cold Lake is one of the other big projects, while in Saskatchewan the Consolidated Simoes, Nipissing Mines, Churchill Minerals and Dominion Explorers have done a great deal of exploration and development work.

Other mine undertakings are expected along the Churchill, where ore bodies of rich value have been found close to power sites. While 86,000 horsepower has been harnessed at Island Falls there is in addition to that nearly 500,000 horsepower available in easy access of important development in Saskatchewan mining regions which are made by prospectors.

Inauguration of the Island Falls transmission line has come several weeks earlier than was expected when the Hudson Bay mine firm held its annual meeting some months ago.

## Shut Out Foreign Wheat

Italy Increases Duty on Wheat and Flour Entering Country

An increase in the duty on wheat and flour entering Italy was put into effect by the Italian government on June 5, according to a cable received at Ottawa by the Department of Trade and Commerce. The step was taken in the furtherance of the Italian government's program for protecting the agricultural industry of Italy. Custom duties on wheat have been increased from 75 cents a bushel to 86 cents a bushel and the duty on wheat flour has been increased from \$3.50 to \$4.57 per cwt. There are no conventional duties on these products.

The German carp is said to live to the age of 150 years.

"And for this I've been paying my sub to the Society for Protection of Animals and Plants for seventeen years."—Gutierrez, Madrid.

W. N. U. 1843

## What Canadians Eat

In Many Respects They Are Best Fed People In World

Figures given in the monthly publication of the Royal Bank of Canada, as to food consumption in this country indicates that in many respects Canadians are the best fed people in the world.

Some of the statistics, especially those dealing with dairy products, show an increase in consumption that is little short of amazing.

Take butter for example. The figures clearly prove that Canadians in 1929 consumed 29 pounds per capita, an increase from 23½ pounds in 1920.

It takes 450 million gallons of milk to satisfy the Canadian demand for this product. The consumption amounting to a pint a day for every man, woman and child in the country.

Since 1920 the requirements of the home market for whole milk, cream, butter, cheese, and increased consumption of 143 million pounds of butter fat.

We eat twice as many eggs now as we did in 1920 and our consumption of poultry has increased from seven to ten pounds per capita.

Simply we are disposing of a much larger quantity of pork, the consumption of which has increased from 160 million pounds to nearly 200 million pounds, which figures out as an increase from 65 to 81½ pounds per capita.

On the other hand beef consumption shows only a small increase and there has been a falling-off in the quantity of mutton and lamb consumed.

## Some People Immune From Tuberculosis

Low Death Rate Among Native Born Persons Of Native Parents

Some very interesting findings appeared recently in a little booklet published by the National Tuberculosis Association.

Native-born persons of native parents show low death rates from this disease. The rates are high for German males, and the Irish rates, both male and female, are over twice the rates of the native born. The rate for Russians, including Jews, is even lower than for native born, and Italian males also show low rates.

Italian females show high rates however. The rate for Negroes in any locality is usually from two and one-half to three times that of the white population. These figures, of course, apply to the United States Registration Area which comprises about ninety per cent. of the total population.

Fortunately, the death rate for this terrible disease is getting smaller as the years pass. It has been declining almost yearly since 1900. The 1927 rate was less than half that of 1904—which meant a saving of approximately 320,000 lives a year.

## Prairie Apples

Growing Fruit Trees From Seed Is The Best Method

The hopes for better home-grown prairie eating apples rest with people who grow trees from seed.

The Experimental Station, at Morden, Manitoba, set out 25,000 seedlings in 1918. These had been grown for a year at the Central Experimental Farm, Ottawa, the seed being harvested from 16 varieties of hardy mother plants. Nearly 8,000 of the seedlings have come into fruit and records of them made.

## Preents Had To Be Returned

The Duchess of York, following a rigid rule of the Court, has returned innumerable birthday presents received for the little Princess Elizabeth from people unknown to her.

Presented sent anonymously have been given to hospital.

Country .....

It is said that Sir Richard Owen, who had a beautiful garden, was once asked by a friend why some of his cherries were not protected by ants.

"These cherries," he answered, "are the salaries of my orchestra, the wages of my choir." So he repaid the birds for their music.

## Sale Of Explosives Should Be Prohibited

Only Way Accidents To Children Can Be Prevented

For three hundred and sixty-four days in the year, children are injured not to play with matches and to keep away from explosives.

On the third day of celebration there are three hundred and fifty-sixth day they are generally supplied with matches and explosives and are warned to be careful.

The day after a day of celebration is productive in Toronto of a list of accidents, due to the combination of children and fireworks, as follows:

"Ten-year-old boy, both legs crushed and fractured above knees by top of gasoline drum thrown against him by explosion."

"Six-year-old girl, badly burned about head and arms when smouldering punk stick set dress on fire."

"Four and a half-year-old boy, pupil of left eye cut open by exploding firecracker."

"Thirteen-year-old girl, left eye injured."

How many minor or near accidents are due to providing children with matches and explosives cannot be estimated. For this toll of trouble the children are not at fault. It is upon the indulgent adults who supply the youngsters with the explosives that the blame must be visited.

It is the duty of the day if they are eliminated altogether. This could only be affected by absolutely prohibiting the private sale of such things. Public displays in the hands of men experienced in pyrotechnics would meet all the necessities of a celebration.—Toronto Telegram

## Animal Curb For France

Farmers Are Not Enthusiastic Over New Law

While lovers of quiet in France have pleasant anticipations of enforcement of the proposed curfew for animals, farmers are not so keenly disposed to the plan. The French authorities propose that after 10 o'clock at night no dog is to be allowed to bark, no cat to serenade and no cock to crow.

Farmers and owners of pets are supposed to see that their livestock is obedient by their curfew, and they say that they will have a lively time in doing so. Those living in cities declare that the proposed law is only fair because in Paris motorists must not sound horns after midnight and in Saint Nazaire radio loud speakers must not be heard in the streets.

## Timber Is Valuable

Nation Growing Its Own Can Save Large Sum

Not so many hundreds of years ago each nation had to depend largely on its own timber to satisfy the ordinary needs of its population. Today, modern transportation permits timber to be marketed at greater distances from its source, says Forests and Mankind. China obtains large amounts of timber from North America, and South Africa gets much of hers from northern Europe. But in the long run it is best economy for a nation to grow timber on its own fertile sections where for one reason or another agriculture is either impossible or unprofitable.

## What We Call Diplomacy

The admiral, who was conducting an examination for the navy, was addressing one of the candidates:

"Who, in your opinion, are the three greatest sailors in British history," he said.

"I'm sorry, sir, I don't catch your name when I entered the room," replied the student, "but the other two are Nelson and Drake."

The admiral gave us brains, but left them to our own opinion.

# European Countries Showing Strong Disposition To Curtail The Importation Of Wheat

## Advocate World-Wide Crop News Service

Would Aid Marketing By Circulating Expert Knowledge

Creation of a world-wide commercial intelligence service to be used in collecting export crop and market information on all lines of agricultural products was discussed by E. M. H. Lloyd, assistant secretary of the Empire Marketing Board, and Dr. J. H. Grisdale, deputy minister of agriculture, and Canadian representative on the executive council of the imperial agricultural bureau, a sub-committee of the board.

Mr. Lloyd, who is touring Canada in the board's interests, admitted that the creation of such a corps and the dissemination of such timely and expert knowledge has been a matter of consideration by the Empire Board for some time. It might be discussed, he said, at the forthcoming economic conference. Export agriculturists, schooled in the collection of marketing and crop conditions, would be maintained in practically all countries of the world if the plan were set in operation. Reports would be collected in one central depot and from there distributed all over the empire.

Such a scheme, Mr. Lloyd believed, would be of great assistance to the Canadian wheat pool and other co-operative marketing organizations.

Mr. Lloyd, who is touring Canada to acquaint himself with Dominion products and conditions, believed that many industries would be aided by the markets which would be the empire through the board.

"There is an ever-increasing public opinion in Great Britain to use empire products," he said. Through the efforts of the marketing board, empire products that were practically unknown or at least were little known in their use in Great Britain, have been brought to the attention of the people, with attendant increases in sales.

## Remember Your Home Town

Pay Old Friends A Visit As Often As Possible

Many railroads today are advertising excursion rates over the weekend so that city dwellers may go back to the old home town for a brief vacation. Immersion in business, coupled with a crowded calendar of engagements, should not deter a man from closing his desk Saturday noon that he may board a train or an automobile bound for the familiar scenes and the loyal friends back home. Character and success are often developed by the friendly atmosphere of the village. To forget the home town is to rob life of one of its major satisfactions.

## Water-Power and Population

As is well known, the use of power increases much more rapidly than the population and this appears to hold good in ever-increasing ratio. The latest figures in regard to water-power development and population in Canada are particularly striking. Taking the last ten years, 1918 to 1928, the population has increased 16 per cent. but the turbine horsepower installed has increased 125 per cent.

## A Non-Skild Tie

The non-skild necktie has made its appearance in France. Shirts and ties of rubber are put together to form either the four-in-hand or bow tie, and these are vitally colored to suit the wearer's taste. It is said that the ties will last longer because they will not fray or wear out, but it is not known whether or not they will stretch out of shape.

The Almighty gave us brains, but left them to our own opinion.

## The Farmer's Sun says: Whether

as a reaction to the efforts of the wheat pools and the United States farm board to "stabilize" prices, or whether it is purely to encourage domestic agriculture, a strong disposition to lessen their dependence on outside sources for their future supplies of wheat is now quite evident. The new tariff on wheat recently put into effect in Germany amounts to approximately seventy-eight cents a bushel. There is also a substantial increase in the duty on wheat flour, while that on oats is increased fifty per cent. and on alfalfa, 80 strong per cent. The inference is that Germany, a large importer, proposes to buy less abroad and to produce more at home.

indicative, is pursuing its program of agricultural socialization, which involves the exploitation of twenty million hectares of collectively owned farms and the use of one hundred and twenty thousand tractors, which is a very high rate of speed. Although the original plan called for the breaking up of half a million privately owned farms, there are between a million and a million and a quarter of them have been dissolved, and it has been found expedient to cut a half, 80 strong per cent. The movement towards collective farming, it is reported, that it has assumed the aspect of an inevitable process, failing over themselves in their desire to participate. At the present time of progress it is estimated that the end of the five-year period will see fifty per cent. of Russian agriculture operated on a collective basis.

In Italy, where the government has planned a long time program to increase the domestic food production, while Brazil, having failed in her attempts to "stabilize" the coffee market by government restriction, is attempting to interest planters in the growing of wheat. These are ominous signs that the future of agriculture cannot afford to ignore.

## Tests Not Complimentary

Showed Large Proportion Of Collegiate Students Are Poor Spellers

Tests of spelling made recently at two of Toronto's collegiate institutes were not complimentary to the students, nor were they satisfactory to the public. At one institution, out of 131 who were examined, only 68 were pronounced good spellers, less than half that number were, while 38 were either poor or bad. At the other, out of 157 who were examined, 62 were found to be good spellers, but an exacting count number were either poor or bad, and only about one-fifth of the total were fair. Spelling is one of the rudiments of education and the poor showing made in these tests explains the disappointment and even irritation often felt by employers of young people. The authorities should inquire why so large a proportion of students are deficient in a study so important as spelling.

## May Not Be Superstition

Writing in the British Medical Journal, Dr. Rose Jordan recalls the good old army alms that tattooed men are protected against infectious tropical diseases and raises the question of whether this is merely superstition or does the impregnation of the skin by these dyes really afford any protection.

## "Oh, why is I ever brought up to be a writer?"

sighed the cub to his fellow reporters.

"You're not the only one who's expected glory by the city editor."

## Tortola Island, composed almost

entirely of iron ore, is used by United States as target for airplane bombs.

She: "Tut, you've taken the wrong bottle. That's a remedy for removing hair from the chin."—Rolfig Hall, Vienna, Czecho-Slovakia.

It is said that Sir Richard Owen, who had a beautiful garden, was once asked by a friend why some of his cherries were not protected by ants.

"These cherries," he answered, "are the salaries of my orchestra, the wages of my choir." So he repaid the birds for their music.

### The Problem Of Markets

It may be poor consolation to the wheat producers of Western Canada, who are in a quandary over the problem of selling their product in the markets of the world at a price which will yield to them a reasonable profit over the cost of production, to learn that they are by no means the only producers of a commodity used throughout the world who find themselves in difficulty of a like kind. And because the producers of these primary commodities are experiencing such difficulties, the makers of secondary and manufactured articles are also feeling the pinch, and find themselves overstocked with goods which they cannot at the moment sell.

The situation which exists is not one that affects Canada alone, or any one commodity alone, but the whole world. It is a problem of over-production in the majority of cases. It affects not only the primary producers in all countries, and the manufacturers, but it reacts adversely upon every class of business and every individual. Because there is a glut of primary products the transportation companies are losing business, and in turn they are employing fewer men in their manifold departments. Merchants require less help because less goods are being sold, office staffs are reduced, and the resultant shortage of money and of buying power on the part of everybody has slowed up or put a temporary stop to building construction activities.

No country in the world is immune from this present condition. It is world wide, but, fortunately, Canada is less seriously affected than any other of the great trading countries of the world.

White Canada's problem is wheat. Brazil's is coffee. While other countries grow coffee, notably Java and Arabia, Brazil is the great source of supply. It has been steadily increasing production, as have other countries, growing more coffee than the world could consume. In order to prevent prices falling to a ruinous figure below actual cost, Brazilian Governments bought up the surplus and kept it off the market, to be released in years of a short crop. The result is Brazil now has sufficient coffee on hand to meet total world requirements with surplus to spare. The big crop coming on. The financial strain has proven too great, and that country is now endeavoring to float a huge loan, \$100,000,000 or more, at a high rate of interest, and in doing so has given a pledge it will buy no more coffee, and will liquidate its present enormous holding within ten years.

Sugar is in the same position as coffee. In 1926-27 world production of sugar was placed at 23,750,000 tons, or about 300,000 tons more than consumption. The following year production exceeded consumption slightly, but in 1928-29 production jumped to over 27,000,000 tons, or far in excess of world requirements, while this year's estimates indicate a still greater production.

Cotton, too, joins the procession. In the last five years the United States produced on the average 40% more cotton than the average for the preceding ten years. The average for the ten-year period ending 1925, was about 1,000,000 bales; in 1926, about 13,000,000 bales were produced. Texas, formerly a great cattle ranching state, is now the greatest cotton producer among the states. Oklahoma is also going in strongly for cotton, and both states are using machinery, as Texas farmers have, to produce cotton, with a result similar to the revolution in wheat production through the introduction of the combine. One Texas farmer harvested 1,700 bales of cotton with five laborers, whereas under the system in the old cotton growing states, 100 workers had to be employed to plant and cultivate and 200 more to pick the crop by hand. It is estimated that Texas alone could produce twice as much cotton as present world needs.

Rubber, copper, tin, zinc, silk, and other basic commodities are all in the same class, production outstripping consumption, the increase in the latter not nearly equaling the increase in the former, and in regard to some commodities, silver for example, actually declining.

Coupled with this situation was the huge withdrawal of money and credit into the speculative stock market during the past two years, ending in the crash of some months ago. The effect was that farmers were deprived of their usual credit facilities and this reacted unfavorably upon their retarding purchasing, which, in turn, reacted upon consumption, consumption on manufacturing, manufacturing on labor, and labor on consumption. All business slowed up.

In the case of Malaya rubber, Cuba sugar, Brazil coffee, the idea prevalent was that control of distribution was the same as control of production. As one writer says, there was no greater mistake. Production is controlled by the demand and energy of human activity aided or retarded by forces external to the production itself, such as the relation between supply and demand. If demand is greater than supply prices rise. If supply is greater than demand they fall.

In Canada, the source of national prosperity, it is now admitted, lies in the wheat crops of the West. World wheat production is steadily, even rapidly, increasing. The biggest problem, therefore, confronting Canada today, is to find a profitable, permanent market for its wheat. To the solution of that problem every Government, the Wheat Pools, farm organizations, manufacturers, merchants, citizens generally, must bend their energies and to it devote their best, most constructive thought.

### Was Hero Of Sailing Adventure

Eighty-two, Died In Victoria

The death took place at Victoria, of Commander Eustace Maud, 82, of Mayne Island. He was born in England. A few years ago Commander Maud's achievement in sailing the ketch, "Hail Moon," alone for 92 consecutive days attracted widespread attention.

In a 33-foot boat with four feet draft and seven foot beam he left Victoria with the intention of sailing through the Panama Canal to Rio de Janeiro. When off the coast of Mexico he was unfortunately struck on the head by the boom and rendered unconscious.

During that period the ketch drifted off the lines of communication and he was believed to have perished. Eventually when he recovered he returned north and reached Victoria little worse for his journey.

**Bell-Ringer Is Pensioned**

Swedish Woman Pulled Ropes For Thirty-Five Years

Sweden's last woman ringer of church bells, Augusta Anderson, who for 35 years has pulled the ropes in the tower of the old Katarina church at Stockholm, has been pensioned and electric machinery will now be installed.

Since 1905 Miss Anderson has attended to the tolling of the bells and only been absent once, two years ago, on account of illness. The first 10 years it was her duty to toll the bells on Sundays only, but later she became head bellringer, with nine other women to assist four times a week.

The church has four bells, the largest of which needs six persons to swing it. The bells are rung every day at eight in the morning and at five in the afternoon.

Every man, woman and child in Canada, the report pointed out, had an interest in U.S. foreign trade amounting to \$148.

**MINARD'S**  
"KING OF PAIN"  
FOR MEN

W. N. U. 1543

### More Remaining In Canada

Scientifically Trained Men Not Leaving In Such Large Numbers

A radical decrease in the number of scientifically trained men who find it necessary to leave Canada for employment was cited by Rev. Dr. H. J. Cody, chairman of the board of governors of the University of Toronto, in an address to the Canadian Manufacturers' Association there. Dr. Cody spoke of the work of the Technical Service Council, an organization founded in 1927. During the past year, 1,000 applications for trained men had been received, and 300 graduates had been placed in key positions in Canada. Since 1925 the percentage of the graduating class of Toronto University leaving the country had been reduced from 27 to 1 percent.

### DO YOU VALUE YOUR HEALTH?

If your health is poor; if you are pale, nervous and easily tired; if you suffer from indigestion and flatulencies; if your digestion is slow; if you are apt to get sick after meals; if symptoms come from an impoverished state of the blood; that unless this condition is remedied a complete breakdown may follow. Dr. Williams' Pink Pills for Pale People is the medicine for any one in this condition. They will cleanse and purify the blood and thus promote health and strength.

G. M. Andrews, Halifax, N.S., writes: "I always keep Dr. Williams' Pink Pills in my medicine chest. I have a young, anxious girl they completely restored my health back and once more these pills brought me back to health. My friends all tell me how well I look and for this Dr. Williams' Pink Pills I am indebted to them."

You can get these pills at all medicine dealers or by mail at Dr. Williams' Medicine Co., Brockville, Ont.

### Likes Canadian Papers

Britisher Wonders How They Can Accomplish So Much

"I have the highest admiration for Canadian newspapers, and wonder how it is that they accomplish so much, for I was greatly surprised and astonished to see a picture of my cousin, the late Sir Ernest Pollock, in a Vancouver paper when I got there, while the full story they had of his career was another pleasant surprise," stated Sir Henry Pollock, of Hong Kong, in newspaperman at Quebec, prior to sailing for a summer vacation in England.

**Relieves Asthma At Once.** If you could read the thousands of untold letters received by the makers from grateful users of too, you would realize the remarkable power of Dr. J. D. Kellogg's Asthma Remedy. All cases, incipient and chronic, are benefited by this great family remedy. Why suffer or experiment with worthless preparations when the genuine Kellogg's can be purchased everywhere.

### Northern Ontario Coal

The Central provinces of Manitoba, Ontario and Quebec, although abounding in great beds of commercial value, are devoid of coal with the exception of Northern Ontario, where lignite deposits have recently been opened up by the Ontario Government. The lignite has been being tested in the laboratories of the Department of Mines, in Ottawa, and elsewhere.

### Interested In Canada's Railways

Many Questions Asked By People Antipodes

"One of the chief things that impressed me in both Australia and New Zealand was the intelligent interest the people showed in Canada," said R. B. Teakle, general manager Canadian National Steamships, who returned recently to Montreal from a trip which has taken him around the world.

"I went to the Antipodes," he said, "in the interests of the Canadian National Steamships and it was a great satisfaction to me to find that not only were our sister dominions interested in Canada but that they had very good opinion of the national railways and our steamships. Where ever I went, I was asked questions about Sir Henry Thornton, who is regarded on the other side of the world as a public figure of considerable significance in railway operation and judgment in railway operation are studied carefully by railway officials."

### Solved His Problem

A visitor from Aberdeen at a Liverpool hotel inquired about the board charges. The figures being rather high, Sandy exclaimed: "How much do you charge for garaging my car?" No charge whatever," he was told. "Well, then," decided Sandy, "I will sleep in my car tonight."

Out of the water, seals have poor eyesight, a fact which aids greatly the work of the sealskin gaiters.

Minard's Drives Away the Headache.

**Weak After Operation**

"I was very weak after an operation. My nerves were so bad I could not sit up on my feet. My husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Anne Walton, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's Vegetable Compound

### WAS WIDELY KNOWN

DE FOWLE'S WILD STRAWBERRY

Death took a colorful figure from the railway and newspaper worlds of Canada recently, when F. E. Trautman, for many years press representative for the Canadian Pacific Railway, western lines, and dean of western publicity men, succumbed to a short illness in Misericordia Hospital, Winnipeg, "R.E.", as he was familiarly known in hundreds of newspaper offices throughout Canada and the United States, was in his 67th year. He leaves a widow and one young daughter, June.

After a long and varied journalistic career in the eastern states, Chicago and Canada, in which he filled every position from one at the compositor's table to the editorial chair, Mr. Trautman joined the Canadian Pacific Railway in Winnipeg, in 1912, under Sir George Bury, who was then vice-president, and inaugurated the first railway press bureau here.

Under a deliberately gruff exterior, the veteran press representative carried a remarkable feeling for the young newspapermen, and many contemporary figures of note in the fourth estate owe their start or their advice to his help. It is partly on this account that few Canadian journalists were so widely known and admired.

Mr. Trautman was married to Miss Kathryn M. Ross, who survives, and who was at the bedside during his last illness.

### British Columbia Apiries

About Two Thousand Bee Keepers Are Operating In The Province

British Columbia has about 2,000 bee keepers with an average of ten hives each, and a yield of about 10 pounds per colony, according to "The Province." There is at present, however, a tendency towards "big business" in honey production. One firm, Turnbull's Apiaries Limited, is setting out 1,500 colonies of bees over a small stretch of territory in the interior of British Columbia.

**Stop The Cough.**—Coughing is a sign of trouble in the throat, sinuses and in the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil relieves the inflammation and consequently the cough will usually stop. Try it and you will be satisfied.

## Her Three Children Troubled With Diarrhoea

Mrs. Les Lapointe, Laurier, Man., writes:—"My three youngest children were very much troubled with diarrhoea. I tried all kinds of remedies, but to no avail. I then got a bottle of Dr. F. E. Trautman's Wild Strawberry, I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled with that awful ailment."

On the market for the past 35 years; put up only by The T. Millburn Co. Ltd., Toronto, Ont.

### Women Who Work

Modern Devices Have Not Altogether Eliminated Work In The Home

By some persons whose knowledge of housework is limited those modern devices have not altogether eliminated work in the home. The most important members of society are supposed to have been relieved of the necessity of doing any physical work. Excessive feminine indulgence in amusements is assumed to be the result.

Systematic inquiry shows a very different result. The bureau of home economics in the United States Department of Agriculture reports that in country districts and in cities of less than 50,000 population women work in their homes considerably over forty-two hours a week, while the average among thousands of women questioned is fifty-one hours a week.

Plainly, vacuum cleaners, electric washing machines, telephones, canning goods, delivery service and all the rest of the time saving and labor-saving devices have not reduced the housewife to demoralizing idleness. She is not yet through with emul. There is no great danger of her finding too much leisure on her hands. Worry over her mental and moral condition in her supposed state of freedom from toil is, to say the least, premature.—Chicago News.

**Persian Balm** is the one true family aid in all ailments and is the mother in additional loveliness. Protects the tender skin of the child. Delights the father as a hair restorer or cooling shaving lotion. No matter to what use it is put, it is always beneficial to the skin. Every woman should use it. Persian Balm cools and cures the skin and cures all ailments of surpassing loveliness.

### Premier King In "Talkies"

Prime Minister Mackenzie King entered the "talkies" for the first time when he faced a battery of moving picture sound machines and delivered a message that will be produced all over Canada and United States and will be sent to Great Britain and Europe as well. The rustic beauty of King, the Prime Minister's country home near Ottawa, was the background for the "shots."

### Use Minard's for Rheumatism.

**British Stock For Canada**

If this Empire is to remain a British Empire and its practice and its interests are to remain British, the British stock must be increased to keep pace with other stock which is flowing into the vacant spaces. So far as Canada is concerned there are two ways of doing this—by assimilation and by the injection of new British stock. Both processes should be worked simultaneously.

CHAPTER XVII.—Continued.

"You on a vacation?" questioned Grandma with a smile.

"Not so's you'd notice it," replied Jim, taking what Grandma called "the visitor's chair," and throwing his hat onto the table. "I've been to Eastboro on business, and as George K. doesn't expect me back till after lunch, I thought I'd pass the time of day with you. How's everything?"

You mean Grandma's?" queried Grandma satily.

"You'd have made a first rate detective, Grandma," was Jim's retort; and the old lady laughed.

"Well," she responded, "the last I saw of the old lady was when she left for school. The doctor ordered to take her in his car, but she said she wanted to walk so I suspected she was on what on her mind."

"What?" asked Jim, added with caution, "Something to do with school?"

"My idea was," answered the old lady, "that it was something to do with you, Jim."

"Me?"

"Yes," said Grandma. "Maybe I'm all wrong, sonny, but I thought she was feeling sort of hurt that you never told her, when you were riding yesterday, that you and your mother were going to California."

"I meant to," explained Jim, "but my mind got taken up with other things. Then, too, I didn't know that Uncle George was going to biab so soon. Not that I care, because Mother's going to tell Little Baker this morning and ask her to do some sewing for her before we start. Besides, I knew it didn't make much difference to Charmin whether I was in California or Timbuctoo."

"I donno why you should say that, Jimmy. You haven't got a better friend in town than that girl at all."

Jim's young eyes looked suddenly weary, and his mouth grim.

"It's something more, than friendship that I want from Charmin, Grandma. No use pretending, is it—to you anyway? And it's plain to see that she's giving the thing I want to some one else. Why should she care whether I go West or not?"

Grandma looked out of the window for a moment, but seeing nothing to comment upon, turned back to Jim.

"I presume you mean she's falling in love with Doctor Carter?"

Jim nodded.

"I donno as I like you saying that, Jim," said the old lady. "Suppose now, he didn't fall in love with her—'Good grief!' how could he help it—living right here in the same house with her this way?"

"He knows a sight of girls back in the city," said Grandma wisely. "There's pictures of two of 'em on his bureau, and another in his watch. I saw it the day my clock stopped and I asked him to set it for me. Maybe he isn't in love with Charmin at all."

"He is," asserted Jim. "D'you ever

"But not till we've gone, please," said Jim, reaching for his hat.

"That's for you to say, Jim. When are you going?"

"Within a fortnight. The doctor wants Mother to get away before cold weather. I'll be some change from Wickfield, Grandma."

"It'll do you good. Maybe you'll meet some of those movie vampires and fall for 'em."

Jim laughed. It was what Grandma wanted and was working for; but she added wistfully as he reached the door: "I'm going to miss you, Jimmy."

"And believe me, I'm going to miss you," he responded warmly as he turned away.

### CHAPTER XVII.

The Bennetts had been gone a month. Their big house facing the common, which had been Sarah Bennett's pride for thirty years, was closed for the first time in its existence, the shining plate glass windows boarded over because, Jim told his mother, boys are the same from one generation to another, and a window-pane in an empty house is a source of irresistible temptation. Coming from the library one Saturday afternoon, Charmin paused to look up at its grim coldness, thinking that the gloom within, and possibly, fading the precious parlor carpet that had come from Boston when Sarah was a bride.

Only the iron dogs that guarded the big front door looked different. They seemed, though the girl wistfully, forlorn, and patiently waiting, with drifts of snow on their icy backs and between their ears, Jim remembered, had always kept their brushed clean and shiny. There had been his playmates, and Charmin's, Tower and Mouser, they called them. How many miles, she wondered, had she and Jimmy ridden those iron steeds.

She was moving on, but at a sudden impulse turned about, and going up the path to the patient canines, brushed off the light snow with a tufted hand. Then glancing stealthily around and seeing no one, she reached out hastily and gave them each a pat. Jim had once told her in a burst of half-mad confidence, that he patted them every morning when he went to work; for though Charmin did not laugh now, indeed, it seemed to her as she regained the door, that he had been up beside her, and he was leaning forward, an invitation in his kindly eyes.

"I was going home," she answered, "loaded with Sunday reading matter, you see; but if you don't be gone too long I'd adore a ride."

The old man beamed with pleasure.

"And I'd adore your company, my dear. Reach in behind for my old cape, and wrap it 'round you. There are colds enough this time of year without adding to the number."

That coat of yours is none too warm a day like this."

"You're right," said the girl, dragging the worn old cape from the back seat, and snuggling into it. "I'm planning to go to Portland after Christmas and indulge in a new one, provided I can find a bargain. It's pretty cold on those early morning walks of mine, though John has been a trump about taking me in his car on the worst days."

To be Continued.

She (somewhat foggy on musical matters) "Is Bach composing much now?"

He—"No, madam, he's decomposing."

"He hasn't aged," said the girl, laughing at the idea, and snuggling into it. "I'm planning to go to Portland after Christmas and indulge in a new one, provided I can find a bargain. It's pretty cold on those early morning walks of mine, though John has been a trump about taking me in his car on the worst days."

Names With Numbers

London Suburbs Do Not Take Kindly To Idea

A shiver of apprehension is going down the spinal column of residents in many classy little suburban areas. The registrar-general, in making preparations for the general census, to be held next year, is appealing to local authorities to have all houses "adequately numbered."

Therefore it is that a great disquiet has settled upon the owner-occupier of the "bijou residence," the "charming villa," and the "eligible bungalow."

All are those dinky boards with legends as "The Oaks," "The Elms," "The Rose," "Clovelly," "The Nook," "The View," and so forth to be scrapped and their place to be taken by a vulgar fraction or at any rate a vulgar number!

The registrar-general suggests postmen are apt to lose their way, or at the least their confidence, at delivery among all those Arcadian descriptive titles.

It is to be feared the registrar will have his way, assuming that the local authorities are of the opinion of thinking, too. The latter believe powers to compel "The Limes" to bear an unimpressive 37, or "The Nook" to suffer the indignity of being labelled plain 18.

### Recipes For This Week

(By Betty Barclay)

#### CHICKEN TIMBALES

2 tablespoons butter.

1 cup stale bread crumbs.

1 cup milk.

1 cup chopped cooked chicken.

1 tablespoon chopped parsley.

2 eggs.

Melt butter and pepper.

Melt butter, add bread crumbs, and milk, and cook in double boiler five minutes, stirring constantly. Add chicken, parsley, and eggs slightly beaten. Season with salt and pepper. Turn into buttered individual molds, having molds two-thirds full, set in pan of hot water, cover with buttered paper, and bake twenty minutes. Serve with cream sauce.

#### ORANGE SYRUP SAUCE

1 cup orange juice.

1 teaspoon grated orange rind.

1 cup sugar.

1 cup lemon.

Grated rind 1/4 lemon.

Put ingredients into saucepan, and boil fifteen minutes. Skim, strain and pour into sterilized glasses. Use as a sauce on vanilla ice cream or on baked rice pudding. This sauce when sealed in sterilized glasses, will keep well, and will be found convenient to have on hand for emergency in the summer.

#### Douglas' Egyptian Liniment

A quick, certain remedy for Hoof, Rot, Thrush, Fom or five applications are usually enough.

#### How She Saw It

An Irish girl was imported from the Emerald Isle to act as general servant for a middle-class household.

The mistress suggested to her the propriety of sending a post card to her relatives with news of her safe arrival in a new country.

The girl did so, and added the following brief impression of her environment: "I came here in a cab with one horse; they play the piano with their feet, and they shoot at people in the hall that aren't there!"

#### Everything Special

A special carpet in two shades of pink was woven for the St. James wedding of Miss Gasequet, heiress of the Worthens.

A gardener grew the roses of the same shade as her dress, and a designer specially studied Miss Gasequet, in order to "absorb her personality," before designing her wedding dress.

#### Minard's for Insect Bites.

### Graves of Heroes Moved

Work Has Been Completed By British Removal of Graves Commission

Removal of the graves of 430 British and Dominion soldiers from the cemetery at Ploegsteert, Belgium, to a spot about half a mile away, has been completed and the long dispute over the matter has been settled, according to an announcement of the British War Graves Commission.

During the World War, the cemetery was constructed beside the ruins of Chateau Rosenberg, which had been destroyed only a short time before.

After the war, the owner of the chateau, a Frenchman living in Belgium, announced that he desired to rebuild the chateau and that the graves would be too close to the reconstructed buildings.

After several years of negotiations, the offer of the owner to donate land for the new cemetery was accepted and the bodies were removed.

### BACKWARD BABIES

Thrive After Use Of Baby's Own Tablets

Derangements of the digestive organs are responsible for most of the ailments of backward children and keep them backward.

Baby's Own Tablets regulate the stomach and bowels restoring them to normal action and this is all that is necessary to set the little sufferer safely on the road to health and happiness.

Baby's Own Tablets are specially designed to correct indigestion, flatulence, colic, break up colds and severe fevers and to allay teething. They are sold by medicine dealers or by mail at 25 cents a box from The Williams' Medicine Co., Brockville, Ont.

### An Extraordinary Experience

Wife Of English Peer Told To Him

From Mid-Atlantic

An extraordinary experience befell Lord Brecknock at the Aldwych Theatre, London, England. He was sitting coolly in the stalls with a small party when a theatre attendant approached him and said "Mid-Atlantic wants you." Scarcely understanding what it was all about, he suffered himself to be led to the telephone and spoke to Lady Brecknock, who had called him from the "Majestic" with as much ease of lack of trouble as if he was making a local call. It is a proof of the efficiency of the telephone service that he was located at the theatre in question within four minutes of the call having been put in at his house in London.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders—a most effective vermifuge. It is absolute in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

Girl Chooses Novel Engagement Gift

Every Blind Person In Her Home County Will Receive Radio Set

A man who recently became engaged to a Gloucestershire girl asked her to choose something as an engagement gift. The result of her choice is that every blind person in the county who is without a wireless set will be given one. The total cost will amount to about \$20,000. The gift includes the cost of maintaining the sets. The donor does not desire the identity of his fiancée or himself to be revealed.

Little Helps For This Week

"Thou shalt give unto the Lord thy God according as the Lord thy God hath blessed thee."—Deut. xv. 10.

For the best that thou canst be ever a servant of the Lord.

The Almighty, in His providence, does not ask of us uniform rates for our rights and lives, as earthly landlords sometimes do. He only asks for the rightful use of the talent entrusted to us. The taxes of Heaven are never capricious, but always proportionate. Not the form observance of each and all alike, but every heart's desire, every hand's readiest service. Not the number of acres you till, but the quality of your tilling determines the profit of the harvest in spiritual as well as material farms. This standard exacts no promises, but it accepts no apologies; for there is no occasion for apology when you have one of you can—Jenkins Lloyd Jones.

Mosquitoes Prefer Blondes

Although the Brunette Is Not Entirely Overlooked By This Pest

Mosquitoes prefer blondes and will pass up a brunette nine times out of ten when there is a blonde in sight.

This was the assertion of Herman Horning, city entomologist and an authority on mosquitoes and their habits.

"Mosquitoes and flies are sensitive to light," explained Mr. Horning. "They are easily attracted to light-haired folks, both men and women, and to prefer fair people to dark."

"Another noticeable thing is that in fields where mosquitoes buzz around crows or horses it will be found that light-colored animals are the greater sufferers."

Mr. Horning made it clear, however, that the brunette was not entirely overlooked by the mosquito.—Philadelphia Ledger.

All Branches Represented

All branches of organized activity in the Province of Manitoba were represented at a meeting in Winnipeg, when plans for Manitoba's diamond jubilee celebration on July 15th were launched. The celebration will commemorate the 60th anniversary of the province's entry into confederation.

Unless worms be expelled from the system, no child can be healthy. Mother Gravel Worm Extirpator is an excellent medicine to destroy worms.

## DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a heaving, from sour and acid stomach? Do you believe that the trouble and trouble with fear, expecting any minute to drop dead. This condition can be prevented by taking Carter's Little Liver Pills after meals and regularity of the bowels. Sweeten the taste and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 35c pig of Carter's Little Liver Pills.

## WORLD HAPPENINGS BRIEFLY TOLD

Death has removed one of Britain's famous sportsmen, the Earl of Selkirk, owner of the Grand National race course at Aintree. He was 59 years old.

Authoritative private advice to the United Press from Moscow, said all the Soviet's spring wheat sown up to June 16, amounted to 22,176,000 hectares (about 55,500,000 acres).

E. W. Beatty, president of the C.P.R., said his company had a site in mind for their projected London hotel, England, but the Hotel Cecil has been rumored.

The sudden overflowing of the Lena River in this eastern section of Siberia has swept away 246 homes and 20 other buildings. Many cattle were drowned and other damage was heavy.

Dieudonne Coste, famed French flyer, has been awarded the medal of the International Aeronautic Federation for the most noteworthy achievements of the year in aviation.

Searching among the ruins of an old sideboard, William Bonnell, Montrose, Colorado, found an old newspaper giving an account of the death and burial of George Washington.

About the time when airplanes will be landing on every apartment house roof or in the commuter's back yard, science will have aided in perfecting an automobile that won't wear out. One British firm has perfected a steel so hard it cannot be scratched with the sharpest file.

Plans are being discussed at Windsor, by the Border Chamber of Commerce, for a good by land and pleasure trip through western Canada, possibly late in August or early in September. It is expected that the tour will go to other than chamber members.

### Bequest For Scientific Work

One Fourth Of Nansen's Fortune Goes To Fund

One-fourth of the fortune of Fridtjof Nansen is to be applied to the Nansen fund. Extracts from the explorer's will, read before the Norwegian Society of Science at Oslo, recently, revealed that the fund, which is used for scientific work, will benefit to the extent of \$25,000.

The directors of the fund will administer the estate, the interest on which goes to Dr. Nansen's sister. The Nansen fund has made large grants for several Norwegian polar and oceanographic expeditions in recent years.

### Farmers in Public Life

The Farmer's Advocate says "Farmers are getting a grip on things politically. Honourable Walter Lea, a farmer in Prince Edward Island, is now Premier of his Province; Honourable John Bracken, a trained agriculturist, is Premier of Manitoba, and his Honour J. B. Mc Gregor, a noted breeder of Aberdeen Angus cattle, is Lieutenant-Governor of the same Province.

### A Long Felt Want

"Men who desire such dilutions," says the Rev. C. E. Macfarlane, D.D., "can drink decaffeinated coffee and smoke decaffeinated tobacco, and now we have on every hand decaffeinated Christianity." But up to the hour of going to press, there seemed to be no hope for decaffeinated jazz, decaffeinated elections, and decaffeinated weather. Nor even for detoxified taxes.

The female mosquito is not only the one that stings but the one that sings.

### KIDNEY TROUBLE BACKACHE VANISHED

W. N. U. 1848

### Across Canada By Auto

Dr. Doolittle Again Makes Trans-Canada Tour  
Dr. P. E. Doolittle, who is now serving his eleventh term as president of the Canadian Automobile Association, has driven to the coast again and is now in Vancouver awaiting the start of the "Golden Twilight" caravan of the provincial government to the northern Cariboo district. This time the cross-country driver came from Toronto to Vancouver, travelling over 3,145 miles of roadway most of which were in Canada, within ten days.

After concluding his tour with the provincial government, caravan, Dr. Doolittle plans to turn east at Kamloops, and drive back again across Canada and to the Atlantic ocean.

### War Books Losing Their Popularity

Output Continues Enormous But Sales Falling Off

War books, which have been appearing in great numbers in Europe, are reported to be losing their popularity there. While the output continues to be enormous in many countries, dealers are beginning to complain that they cannot sell near the number they have on hand. Russia is said to be the only nation which did not catch the war-books craze. When Sheriff recently presented an autographed copy of "Journey's End" to the Imperial War Museum, in London, England, the museum announced that it had 50,000 volumes of war books.

### Winnipeg Newspaper Union

(By Anabelle Worthington).

When the Canadian Confederation was established in 1867, four diverse units of British territory in the north-eastern section of the continent agreed to come together and forget as far as possible, their differences. Since they all retained their provincial status, however, with the necessary, and also some unnecessary, governmental machinery in each case, there was still plenty of room for argument. If the Fathers of Confederation (who rightly received so many tributes during the Jubilee celebration thirty years ago), could not adjust the situation between the Federal jurisdiction and that of the four units which had been established for generations, how could they be expected to foresee and care for problems relating to a new territory subsequently taken into the Union? It simply couldn't be done.

The Diamond Jubilee celebrations throughout the Province or rather, the Dominion, have been intended chiefly to mark the sixtieth anniversary of the admission of Manitoba into Confederation, and there is no doubt they will be every case be worthy of the occasion. When the event actually took place in 1870, there was much shaking of heads, particularly in the East, about the wisdom of the step. A review of the litigation and other trouble that has followed would seem to justify the words of the doubts, and it is a matter for congratulation now that these have been dispelled. Manitoba was the first of the new territories to be absorbed and her problems were without precedent, insofar as her relations with the "rest of the family" were concerned. It is little wonder, then, that when trouble did arise there was plenty of it. This Province was variously regarded as the "storm petrel," "stormy petrel" or the "ugly duckling," according to the particular viewpoint of the politician who was expressing an opinion on the subject. Whatever the occasion, Manitoba was prominently in the limelight. Whether it was in the matter of railway competition, enlargement and adjustment of boundaries, educational autonomy, insufficient subsidies, or control of certain phases of commercial affairs, there was at no time any doubt about Manitoba's position. If there was a fight, she was supposed to be in it, and the mythical "Indian" was more, she not only desired to be in it, but she had her jaw grinded to the full.

From the standpoint of material advancement, the most important battle was that in connection with the boundaries. When the Province was instituted in 1870, it was a tiny affair, and was factually likened to a "postage stamp." After a little more than ten years of discussion, the Government headed by Sir John Macdonald at Ottawa, arranged to have the boundaries greatly extended. Indeed, under the proposed scheme a large section of what is now Western Ontario, including the town of Port Huron (Michigan), would have come under the jurisdiction of Manitoba. But the Ontario Government, under the leadership of Hon. Oliver Mowat, saw a fine chance to raise a commotion, and it was duly raised. When the smoke and haze of legal action had cleared, it was found that the Mowat Government had won out, and Manitoba's eastern boundary was fixed in its present location. There was no Mowat to interfere

with the matchless silk crepe blouse. The Ensemble in trend in heavier brown tones undoubtedly is the most practical and smartest fashion that Paris has sent us in some time. Style No. 2963 sketched achieves youthful sophistication through simulated tuck-in blouse of flat silk crepe in lozenge shade, with nude belt in soft brown tone indicating higher waistline. The skirt is belted across front with plain straight silk band, preferred for general wear. The coat is in seventh-eight length. The fronts are underlined with plain woolen in harmonizing tone and rolled into revers with collar. Sleeves have cuffs of plain woolen which appears again in applied bands of pockets. It is designed in sizes 12, 14, 16, 18 and 20 years, and you'll find it very simple to make.

Pattern price 25 cents. Be sure to fit in size of pattern. Address Pattern Department.

## NEW BRUNSWICK GOVERNMENT IS SUSTAINED

St. John, N.B.—Endorsement of the Baxter government's administration of New Brunswick's provincial affairs was written into the political record of the province in decisive terms. Climaxing a short but crowded campaign with the irrefragable argument of ballots, the electors journeyed to the polls to return 31 of the administration's representatives to power, while the forces of the Liberal opposition succeeded in consolidating a gain of six seats over the total of 11, which was their total in the last legislature.

Carried into office in Saint John County, with a greatly increased personal majority was Premier the Hon. J. B. Macdonald, whose handling of the Grand Falls power development as a private enterprise, inauguration of government liquor control, and permanent road policy had emerged as prime issues of the campaign, while Wendell P. Jones, chosen leader of the opposition in April, went down to defeat in his home county of Carleton. A. A. Dyrart, opposition leader, was elected in the margin of 1,000 votes, tripling his margin of the last election.

The only member of the government to meet defeat was Hon. Lewis Smith, Minister of Agriculture, who was defeated by a majority of 150 votes in Albert County, where the opposition made two of their six gains, the quartette having been reduced to close majorities in Northumberland.

## Will Discuss Many Things At Conference

Subjects Of Interest To Empire Will Be Aired

London, Eng.—The British government proposes to place no limitations on the scope of discussion at the forthcoming Imperial Conference, but all subjects of interest to the Empire will be aired.

The prime minister spoke of the Economic Conference which will meet at the same time as the Imperial Conference proper. At this stage, he announced, no thing of economic interest to the Dominions and to ourselves may be brought up.

The Rt. Hon. J. H. Thomas, secretary of state for the Dominions, also made it clear that the government desired discussion in the widest possible terms.

## Effect Of Crisis In U.S.

Communist Russia Refer To Economic Conditions In America

Moscow, Russia. — Communist newspapers declared that the United States was paying one of the worst economic crises in its history.

Pravda, one of the organs of the Communist party, said the latest Wall Street slump was merely a prelude to a more destructive and dangerous drop.

"America's general industrial crisis," said the newspaper, "has been followed by an agricultural crisis of unprecedented depth and acuteness which sharply decreases the purchasing power of the farmers. The danger of a new war among the imperialist countries, and especially against the Soviet Union, assumes a greater reality than ever."

## Chicago Gang Rule

Will Make Thorough Investigation Of Police Department

Chicago, Ill.—A thorough investigation of the Chicago police department and its failure to cope with the rule of gangsters was ordered by the city council at its first session since the assassination of Alfred "Duke" George, Tribune reporter, nine days ago, to focus attention on crime.

Mayor William Hale Thompson announced that John H. Alcock, the "iron man" of the force, would remain at the helm of the police department indefinitely.

## Exempt From Income Tax

London, England.—Consular employees and other official representatives of foreign governments in Great Britain will continue to be exempt from British income tax, according to a finance bill introduced by the minister of the House of Commons recently.

## W. N. I. 1843

## Will Pay Portion Of Freight Rates

Government To Assist In Shipments Of Lignite Coal

Ottawa, Ont.—The Dominion government will pay 50 cents per ton of the freight rates on all Saskatchewan lignite coal shipped into Manitoba during the next year, according to an order-in-council made public by Hon. Charles Stewart, Minister of Finance. Another order-in-council provided the payment by the government of one-eighth of a cent per ton on all shipments into Manitoba of coal mined in Alberta, or in the Crow's Nest Pass district of British Columbia.

The special rates are put into effect from June 1, 1930, to May 31, 1931. They are to apply to all coal used for industrial purposes, but not when the coal is for use on railway locomotives or for domestic fuel.

The order-in-council respecting Alberta and British Columbia coal provides a week ago which provided that one-fifth of a cent per ton on coal from the Crow's Nest Pass area and the bituminous areas of Alberta. The new order-in-council extends the rate to the whole province of Alberta and the rate is altered to one-eighth of a cent.

Officials of the Dominion Fuel Board explained that the 50 cents per ton to be paid by the government will be sufficient to cover the advantage enjoyed by United States mines over those in Saskatchewan in the matter of freight rates. Coal from the Crow's Nest Pass area, which was carried to the Manitoba coast cheaply, it was stated, on account of the water route between Lake Erie and the head of the lakes.

In the same way the assistance being given to British Columbia and Alberta coal is expected to remove obstacles to its use in Manitoba.

## Lumber Shipments Delayed

Care Of Canadian Lumber Are Held Up At Border On Account Of New Tariff

North Portal, Sask.—The new United States tariff now in effect, has resulted in a number of cars of Canadian lumber being held on the Canadian side of the border pending the receipt from Washington by United States customs brokers of more explicit information as to the application of the new tariff. Heretofore Canadian lumber of every description was admitted free, but under the new tariff countervailing duties will apply.

Reduction on autos to 10 per cent from the previous countervailing rates of 20 and 27 per cent, will have little local application, and will affect used cars, as no new cars are imported from Canada. Increases on oats, corn, butter, eggs and chickens have no local material, as these articles are not imported from Canada.

## Convention Date Changed

Canadian Good Roads Association Meets In Quebec In September

Montreal, Quebec.—Dates of the annual convention of the Canadian Good Roads Association, to be held in Quebec, have been changed to September 16, 17 and 18. In announcing the change, George A. McNamee, secretary of the association, stated that the Province of Quebec, through Hon. J. E. Perrault, K.C., Minister of Highways, is anxious that the visiting delegates should see the picturesque Gaspé Peninsula, in all the glory of its fall coloring, by the new highway.

## Was Prominent Grain Man

Montreal, Que.—A. P. Stuart, president of the British Empire Grain Company, and a member of the Montreal Corn Exchange, died here recently, aged 80. Mr. Stuart was born in Plymouth, England, and came to Canada in 1870, to become a private banker in Montreal, Manitoba. Later he entered the grain business in Winnipeg, moving eventually to New London, England, and finally to Montreal, where he is survived by his widow, one son and three daughters.

## Succeeds Late Dean Rutherford

Saskatoon, Sask.—Professor A. M. Shaw, head of the Animal Husbandry Department at the University of Saskatchewan, has been appointed dean of the College of Agriculture in succession to Dean W. J. Rutherford, who died three weeks ago. It was announced by Dr. W. C. Murray, president of the university.

## BALDWIN WILL NOT CONFER WITH PRIME MINISTER

London, England.—It is understood that Rt. Hon. Stanley Baldwin, Conservative leader, has declined to accept the invitation of Prime Minister Ramsay MacDonald to participate in a conference of the three party leaders on the emergency problem of unemployment.

Mr. Baldwin's reply was sent to the Prime Minister after consultation with leading Conservatives.

These advisers, it is said, took the view that Conservative abstention from the conference would not prevent the Government from proceeding to the House of Commons any measures they might evolve to meet the critical situation. The Conservatives pointed out that these measures, should they wish the support of the Rt. Hon. David Lloyd George and his Liberal followers, Mr. Lloyd George having pledged co-operation in any "sound and effective" legislation, would be tantamount to the Conservatives feeling the present Government is incapable of dealing with unemployment and resent Mr. MacDonald's refusal to allow the opposition access to official data on the present condition of trade, industry and employment.

With insufficient material to go upon, the Conservative chief said, the party could not promulgate any constructive action, as it would like to do, but must be merely a rubber-stamp for the Labor Government's plans.

Sir Austen Chamberlain opposed the Conservative attack. He twitted Mr. Lloyd George for his recent "wool" of Mr. MacDonald. "But the Prime Minister," Sir Austen added, "has been rather good."

"The leader of the Liberal Party," Sir Austen exclaimed, "has shown a desire to share the power of the government without a readiness to accept the responsibility. The Prime Minister wants to share the responsibility and still retain the power."

The Conservative speaker charged the government was barren of a policy regarding unemployment and barren of a policy on Empire trade. Yet the Dominions—the latest example came from Canada—had shown that in cases where they could not fill their own needs, they would rather buy from Britain than from the outside world.

## Admiral Byrd Returns

Receives Rousing Welcome When He Reaches New York

New York, N.Y.—Aerial conqueror of both ends of the earth, Rear Admiral Richard E. Byrd set foot again on Lower Manhattan from which he sailed 16 months ago on a pilgrimage of exploration into the white wastes of Antarctica.

Surrounded in sea and sky and on the land by a roaring welcome in "planes and harbour craft and cheering thousands joined, he sailed from the city of the world, "Macomb," to receive from the City of New York, the third and by far the most boisterous greeting he had been tendered to him for his achievements of exploration by air.

## Saskatchewan Highways

Saskatoon, Sask.—Before the snow fits again, the provincial highways department expects to have completed, and in full use, gravel roadways from Lloydminster via Saskatoon to Yorkton, and from Moose Jaw via this city, to Prince Albert National Park.

## Enter Red-Hot Fire Box

Two men while driving engine, found grates dislodged from the grate carrier. Though the engine was under a full head of steam, they dumped the fire and taking turns in the task entered the red-hot fire box and worked the grates and grates connected up all operating rods. Only a few inches from the scorching sides of the firebox, they found the heat intense and one man would replace the other after a minute's work. They brought the main steam destination only a few minutes behind scheduled time, saving a serious delay.

Latest picture of Prince Carol of Roumania, who has ascended the throne of Roumania.

## Storm Creates Panic At Ascat Race Meet

Well Known Bookmaker Killed By Bolt Of Lightning

Ascat, B.C.—Panic ensued when the throng of Ascat race meet when a sudden, terrific electrical storm broke over the enclosures and a bolt of lightning struck and killed Walter Holbein, well-known north of England bookmaker, in Tattersall's betting ring only a few yards away from the King and Queen and their royal guests.

Society women, caught in a rush for shelter when a deluge descended upon the throng, were thrown to the muddy ground and brawled under feet.

They were knocked off, parashers were lost and some of the women arrived at the stands without their slippers, which had been left behind, stuck in the mud or torn from their feet.

The King and Queen, accompanied by the Prince of Wales and escorted by many of their guests at Windsor Castle, had arrived in motor cars and were in the royal box when the storm occurred.

## Hoover Halts Soviet Plan

Negotiations For Building Bombing Plane Stopped

Baltimore.—Negotiations between the Soviet Government and the Glenn L. Martin Company, of Baltimore, for the manufacture of 20 twin-engine bombing planes at a cost of approximately \$2,000,000 have just been halted by the Hoover administration, according to a dispatch from Washington.

"In view of the precarious situation existing across the Russian border in Afghanistan and India, where British 'planes have been bombing rebels," says the dispatch, "and also in view of the somewhat strained political situation along the Polish border, it is believed in some quarters that the Hoover administration has decided to place a veto on the proposed sale of valuable war weapons in the hands of the Soviet Government."

## Crowd Welcomes Bennett

Vancouver, B.C.—With banners of welcome to Hon. R. B. Bennett, a "Statesman With a Canada Policy," and with flags bearing the election pledges of the party, the conservative rally opened recently, at the auditorium. The meeting was probably the largest in the election campaign of the Opposition chieftain.

## Opening Campaign In B.C. On July Fourth

Premier King Will Hold First Meeting At Revelstoke

Vancouver, B.C.—Senator J. H. King announced here that Prime Minister Mackenzie King will open his election campaign meetings in British Columbia on Friday, July 4, when he will speak at Revelstoke on his way to the Pacific coast. The prime minister will arrive in Vancouver on July 6, and proceed to Victoria where he will address the electorate on Monday evening, July 7. On July 8 he will speak in Vancouver and on Wednesday, July 9, in Kamloops.

## Storms Damage French Crops

Cattle Killed By Lightning And Small Animals Drowned

Paris, France.—Storms which raged for several days over widely scattered parts of France severed highways and railroad communications, wrecked homes and damaged crops.

Lightning killed cattle, and flood waters drowned smaller animals in the Burgundy and Auvergne regions and much of Paris' crop damage is reported to be heavy.

## REACTION TO THE NEW TARIFF LAW PASSED BY U. S.

Ottawa, Ont.—The signing of the new Hawley-Smoot tariff bill by President Hoover, in Washington, automatically brings into effect some twelve changes in the Canadian tariff as against United States. These are the items containing provisions for countervailing duties brought into effect in the Dominion budget of May 1st. Some twenty items in the Canadian tariff contain the countervailing provisions, comprising commodities. All of these are not further changed by the new U.S. bill, in some cases the new U.S. rate is the same as under the Forney tariff.

The principle of the countervailing duties is that the Canadian tariff will be as high on the particular article coming from another country as the rate that country levies against the same commodity entering from the United States. While the countervailing tariff in this country does not specify United States, the interchange of the same kind of goods between Canada and that country is much greater than between Canada and any other country.

One of the most important changes with the bringing into effect of the Hawley-Smoot tariff and the countervailing duties is the countervailing tariff by which it will be its effect on potatoes. Canada shipped to the United States for the fiscal year ended March 31 last, potatoes to the value of \$1,173,379. Potatoes went to United States from Canada under a tariff of one per cent last year, and U.S. potatoes came into Canada free. Under the new tariff the barrier both ways will be 75 cents per hundred pounds.

Oats, cattle, meats, eggs and butter are also greatly affected by the new tariff wall.

A new tariff law was put into effect by the United States recently and international reaction to it was reflected in actual reaction in kind by one government, consideration by two others of measures of reprisal and condemnation from the press of several nations.

Automatically with the effectiveness of the 1122 rates schedules contained in the Hawley-Smoot tariff bill, Canada's countervailing duties became operative, placing higher duties on a dozen commodities imported from the United States.

These duties, which were included in the government's May 1 budget, are applied on the principle that the Canadian tariff shall be as high on certain articles coming from other countries as the rates those countries levy against the same commodities from Canada.

The Belgian cabinet discussed the law and then decided that any retaliatory measures should await conferences with other European countries. The Spanish government studied requests that it break the existing mood vivendi with the United States as a protest.

In Havana, the newspaper El Mundo, attacking the new tariff law as unjust, says it will destroy the friendship between Cuba and the United States.

The Paris Petit Bleu advocates boycotts of United States products.

It Teves, of Rome, said the tariff "is the ultimate manifestation of the economic imperialism of the United States."

## PLAN AIR ROUTE FROM LONDON TO WINNIPEG

London, Eng.—The government is extending no financial assistance to the British expedition under Captain G. R. Watkins, which is to examine the possible air route from London to Winnipeg over the Greenland icecap, stated Hon. Frederick Montague, under-secretary of state for air, in answering a question in the House of Commons.

The under-secretary, however, told the questioner, I. J. Albery, Conservative member for Gravesend, that the government was putting the services of a Royal Air Force officer at the disposal of the expedition and was also lending certain meteorological instruments. The war office was sending chronometers and wireless equipment.

The object of the expedition, said Mr. Montague, was to survey and to collect the necessary meteorological and geographical data with a view to determining the practicability of the establishment of a regular air route between Europe and Canada via Greenland. The expedition is to leave shortly.

Captain Geoffrey Robert Sladen Watkins, D.S.O., an officer attached to the air ministry, obtained command of the expedition, and was one of the three survivors of a submarine which was cut in half in an accident in 1909. He was one of the three survivors of a submarine which was cut in half in an accident in 1909. He was one of the three survivors of a submarine which was cut in half in an accident in 1909.

## Brownlee Ministry Endorsed

Farmers' Party Sustained In Alberta Election

Calgary.—Victorious farmers of Alberta, who strode into power in Alberta nine years ago under the guidance of Hon. Herbert Greenfield, have again won to a third term in administration of the province. Followers of Premier J. E. Brownlee, who secured a decisive victory in the last assembly, were certain of re-election with counts still proceeding in many constituencies.

It seemed probable, however, that the Farmer party majority would be slightly reduced.

Two of the cabinet members listed as sent back to the legislature were granted acclamations on nomination day. These were the Premier and Hon. O. L. McPherson (Little Bow).

Two of the three new seats formed in the redistribution enacted at the election were won by the Farmer party. Rudolph Hennig, former member for Victoria won in Cloverburg, and Hugh Allen had already won an election in Grande Prairie.

Two labor members were sent back to the legislature. One was bridge and Edson. Andrew Sweetson, in Lethbridge, followed W. D. Hardie and Robert Barrowman. In a tie in the election, in Edson, Chris Pattison defeated Charles Payne, Liberal.

## French Minister To Canada Recalled

Hon. Jean Knight Has Been Given New Post In Paris

Ottawa, Ont.—Hon. Jean Knight, French minister to Canada since 1928, has been recalled to Paris to succeed M. de la Roche as minister of services in the foreign affairs ministry. Announcement of the minister's appointment to the high position has been made known here.

Hon. Mr. Knight will likely say "adieu" to Canada soon. Henri Courcier, secretary of the legation, will be charged de affairs pending appointment by the French government of a new minister plenipotentiary to the Dominion.

## Predicts Another War

Russian Commissioner Delivers His Periodic Warning Of Outbreaks

Moscow, Russia.—Nikolai Voroblov, commissar of war, has delivered one of his periodic warnings of the outbreak of another great war. He said that the United States, Japan, Great Britain and France this year would spend \$7,000,000,000 gold (about \$12,000,000,000) on armaments compared to only \$2,000,000,000 in 1913, and he interpreted that as indicating clearly that those countries are preparing extensively and rapidly for war.

low rate schedule. This class of business has reached such proportions that the Company is now able to offer further economies for this class of service.

To domestic users the energy charge for over 50 k.w.h. hours per month is reduced from 3 1-8c per k.w.h. to 3 1-4c.

Commercial users will pay 3 1-4c per k.w.h. for over 200 hours per month, instead of 3 1-8c as formerly.

Power users will benefit by a shortening of blocks in the power schedule. The new reduced rates which are to be known as the summer schedule will be put into effect on all bills rendered after June 30th and will hold until October 31st. In future years the summer schedule will be put into force on all bills rendered from March 1st to October 31st. The winter rates will remain in force only for the remaining four months.

### Annual Picnic of Carmangay Ag. Society To Be Held July 4

The programme is a comprehensive one including baseball, athletic sports, etc. This picnic has always been regarded as an opportunity to spend a pleasant afternoon, and this year will prove no exception to the rule.

### COMMUNICATION

Mr. Woodhull, Reporter, Champion, Alberta.

Dear Sir: We have decided that we should like to see a correction in your next issue of the statement undelivered below. As yet we have no school in this vicinity and are not likely to get one until school trustees see such an issue or statement in our weekly paper. Three graduates of the Calgary Normal School from Champion have all secured positions in this vicinity. They are Miss Sarah Fleming, Miss Ethel McDougall and Miss Agnes Patterson.

Hoping this reaches your kind attention, I am  
Yours truly,  
SARAH A. FLEMING  
Does not the writer rather underestimate the intelligence of a board of trustees in assuming a satisfactory application for the position of teacher would be discarded without an effort to establish the correctness of such a report? We hope so. Should the inadvertent publication of a mistaken statement injure anyone's prospects we would be sorry indeed.—Ed.

### Hotel Savoy DINING ROOM

Having closed the Farmers' Restaurant and taken over the above diningroom, the undersigned trusts that all her old customers will continue in the new location, and that the extra service made possible by increased conveniences will attract many new patrons.  
No effort will be spared to please the public with quality meals and up to the minute service.

Mrs. O. E. Hargraves

If laughter is any critic of the merits of a picture, then John Barrymore is a huge success. See the all talking picture July 1st, "The Man From Blankley's."
